

IS LOOKING FOR A

Chief Medical Officer

Chief Medical Officer

ncoDNA helps oncologists to choose the most appropriate treatment for each patient's cancer profile. In addition to diagnostic tests, OncoDNA has developed a data interpretation platform (SaaS model) for cancer centres. OncoDNA is one of the European leaders in the field of precision medicine. The company is based in the Gosselies Biopark and employs 50 people in four countries.

As part of our growth, OncoDNA is looking for a Chief Medical Officer to reinforce our Scientific Team (Parte Time Basis)

Reporting to the CEO, the **CMO** will be responsible for developing and executing our medical strategy to generate clinical evidences of our solutions in collaboration with other functions, as well as demonstrating the clinical value of our solutions to healthcare and industrial partners globally.

KEY RESPONSIBILITIES

- ✓ Provides input to development of medical strategies to support commercialization activities by working closely with Commercial Team, Marketing, and other cross-functional teams.
- ✓ Proposes medical advice to support business development opportunities specific to existing and future product portfolio.
- ✓ Provides scientific and medical leadership for OncoDNA and functions as a key liaison with KOLs and Scientific/Medical Advisors.
- ✓ Interacts with advocacy groups to better understand the needs of various stakeholders
- ✓ Promotes the image and the reputation of the company by participating in trade fairs, congresses, workshops, conferences of business trips abroad.
- ✓ Supports deal negotiations by creating and articulating the scientific/medical proposal and input.
- ✓ Develops deep working knowledge and network in oncology space
- ✓ Attends medical meetings involving potential diagnostic and clinical decision making or application/information that will impact potential patient diagnosis, and provides analysis and advice
- ✓ Develops strategic plans for our product portfolio to ensure quality, safety standards and regulatory requirements are met

REQUIREMENTS

- ✓ MD or PhD with 5-10 years relevant experience
- ✓ Good knowledge in medical oncology and drug development
- ✓ Understanding of genomics market and diagnostic procedures/guidelines
- ✓ Knowledge of GCP and regulatory guidelines
- ✓ Good Communication skills
- ✓ Ability to work cross-functional and build network of external stakeholders.
- ✓ Curiosity, open to continuous training and self-development
- ✓ Ability to travel up to 20%

WE OFFER YOU:

- An opportunity to play a key role in the company's scale-up phase
- An international environment in a rapidly changing digital industry
- A young, dynamic and involved team in the fight against cancer

ABOUT

At OncoDNA we strive to help cancer patients. OncoDNA offers solutions combining the most relevant molecular technologies in order to provide a comprehensive characterization of the patient's cancer, hence supporting oncologists in their treatment and follow-up decisions.
