

IS LOOKING FOR A

Senior Scientist - Next Generation Sequencing

Senior Scientist - Next Generation Sequencing

OncoDNA helps oncologists to choose the most appropriate treatment for each patient's cancer profile. In addition to diagnostic tests, OncoDNA has developed a data interpretation platform (SaaS model) for cancer centres. OncoDNA is one of the European leaders in the field of precision medicine.

The company is based in the Gosselies Biopark and employs 50 people in four countries.

As part of our growth, OncoDNA is looking for a Senior Scientist – Next Generation Sequencing.

Reporting to the COO, you will be part of the Scientific Team, and act as the scientific specialist in the Genomics.

KEY RESPONSIBILITIES

- ✓ Responsible for the development and the delivery of scientific projects
- ✓ Ensure the perfect execution of the technical aspects of the projects and provide scientific expertise thorough the different project
- ✓ Build strong collaborative relationships with the different people involved (internal and external) in order to achieve the different projects
- ✓ Develop and validate analytical methods
- ✓ Work in close collaboration with the BioIT Team to analyse data via new and existing methods
- ✓ Act as a scientific expert at internal and external meetings
- ✓ Develop an overall knowledge of the Pharma/Biotech industry context and the ability to translate this into new business opportunities
- ✓ Ensure compliance to quality standards set by regulations, procedures and mission
- ✓ Improve NGS/ Genomics & Transcriptomics processes in collaboration with the team
- ✓ Generate reports and KPI for the management Team

REQUIREMENTS (HARD & SOFT SKILLS)

- ✓ Ph.D. in Molecular Biology or equivalent
- ✓ Relevant experience in Pharma/Biotech industry (> 5 years)
- ✓ Have significant scientific expertise within the NGS/Transcriptomics & Genomics fields
- ✓ Knowledge and hands-on experience with various molecular biology analytical methods (such as qPCR, digital PCR, Sanger sequencing, next-generation sequencing, ...)
- ✓ A proven understanding of statistics, quantitative data analysis, data mining and knowledge of LIMS systems
- ✓ A track record of peer-reviewed publications and scientific presentations
- ✓ Result Oriented and problem solving
- ✓ Team spirit & Customer Oriented
- ✓ Fluent in French and English

WE OFFER YOU

- An opportunity to play a key role in the company's scale-up phase
- An international environment in a rapidly changing digital industry
- A young, dynamic and involved team in the fight against cancer

ABOUT

At OncoDNA we strive to help cancer patients. OncoDNA offers solutions combining the most relevant molecular technologies in order to provide a comprehensive characterization of the patient's cancer, hence supporting oncologists in their treatment and follow-up decisions.

Interesting to join our team ?
