

Junior Biologist

OncoDNA helps oncologists to choose the most appropriate treatment for each patient's cancer profile. In addition to diagnostic tests, OncoDNA has developed a data interpretation platform (SaaS model) for cancer centres. OncoDNA is one of the European leaders in the field of precision medicine. The company is based in the Gosselies Biopark and employs 45 people in four countries. As part of its growth, OncoDNA is looking for a Junior Biologist.

UNDER THE RESPONSIBILITY OF THE PRODUCTION DIRECTOR, YOU WILL ASSUME THE FOLLOWING RESPONSIBILITIES AND TASKS:

- ✓ Manage and coordinate on a daily basis all the analyses from patients associated with the OncoDNA's solutions in respect with the constraints of turnaround time. This includes all the technologies used to generate the reports;
- ✓ Analyses IHCs and NGS results (and others if trained and required);
- ✓ Assure the link between subcontractors, production and customers;
- ✓ Audit the subcontractors like (Bio.be/IPG) within the framework of Assurance Quality support;
- ✓ Deliver comprehensive and correct reports to customers (mainly oncologists) based on OncoDNA's solution;
- ✓ Assist with customer complaints and investigation activities by providing necessary technical data and feedback to Sales Support, Product Management, Quality Assurance, Engineering and R&D as appropriate;
- ✓ Be responsible within a team of the OncoDNA's database to improve it with the latest information;
- ✓ Providing detailed feedback from customers to internal teams at OncoDNA;
- ✓ Participate if needed to scientific meetings or training to improve the knowledge or the skills associated with the function;
- ✓ Work closely with other departments such as the Sales Team, by providing scientific and technical expertise.

YOUR PROFILE :

- ✓ You hold a master of science or PhD in Molecular and Cellular biology.
- ✓ You get a first experience in a similar environment
- ✓ You have excellent organizational and communication skills;
- ✓ You are stress resistant;
- ✓ Able to work with a Team and project management;
- ✓ You get solid Understanding of data analysis, as well as Solid Scientific Background;
- ✓ You are fluent in English (oral & Written), a second European language is an asset.

WE OFFER YOU:

- ✓ An opportunity to play a key role in the company's scale-up phase
- ✓ An international environment in a rapidly changing digital industry
- ✓ A young, dynamic and involved team in the fight against cancer
- ✓ An attractive remuneration composed of extra-legal benefits
